Hello Central California Region,

It is our honor to present this report from the 2026 World Service Conference (WSC) of Narcotics Anonymous. What follows is a summary of the key statistics, financial information, and decisions made on behalf of the fellowship at this year's Conference. For complete details on all motions and decisions, please visit the official WSC 2026 Summary of Decisions at www.na.org/conference.

It was a privilege to represent each of you there. The work done at this Conference will shape the direction of NA World Services through 2029 and beyond. I encourage every member, group, and service body in our region to read this report, ask questions, and stay engaged.

In loving service,
Dennis D.
Regional Delegate, Central California Region
Ellsworth W.

Fully Self-Supporting … Funding Global Services

NA groups carry the message to the addict in their own language and culture - and the message remains the same across astonishing differences. NA World Services exists, ultimately, to support the work of groups worldwide. The $2,093,503 in fellowship contributions (members, service bodies, and groups) received funded approximately 26 percent of the global services provided by the World Services Office. In our efforts to move away from our reliance on literature sales to fund global services, increased fellowship contributions bring us closer to being “fully self-supporting”.

When we look at AA’s model, 70% of their global services are funded by direct contributions, with 30% coming from literature sales. In comparison, NA’s direct contributions, on average, fund 20% of our global services, with the remaining 80% coming from literature sales.

Practicing self-support through our direct contributions helps our groups grow and carry the message to the addict who still suffers. It also strengthens “our common welfare” by moving us closer to fully funding our worldwide services. If every group contributed just $3.09 per week ($160.68 annually), global services would have been fully funded in FY 2025. By comparison, actual contributions averaged only $0.84 per week ($43.86 annually) per meeting.

Not every group can contribute the same amount, but our common welfare is strengthened when groups contribute what they can. In 2025, one virtual group donated $19,000, bringing its total contributions since 2021 to nearly $89,000 - a powerful example of what is possible through direct fellowship contributions.

NA World Services, Inc. 2026 - 2029 Budget

Below is a brief summary of the approved (Motion #16 - 125 votes in favor) 2026 - 2029 NA World Services, Inc. Budget ("Budget") For complete details, see pages 23 to 28 in the Conference Approval Track material. Outlined are the four activity areas and the percentages of how much of the NAWS Budget will be used for each activity area.

Activity Area | NAWS Budget	Base Year	FY 2027	FY 2028	FY 2029
Literature Production | Distribution	$3,035,324	$3,374,334	$3,593,049	$3,772,210
World Service Conference Support	$1,441,611	$1,643,424	$1,721,553	$2,440,707
Fellowship Development	$2,368,719	$2,543,290	$2,698,825	$2,819,270
Events	$353,357	$334,187	$366,726	$385,320

Literature Production | Distribution:

Historically, Literature Production and Distribution has been the financial engine of NA World Services. We still apportion such a significant percentage of our fixed costs to this Activity Area because of the complexity of supporting our current catalog. We publish more titles in more languages than ever before, and the work required to get these items published increases each cycle. Currently, we produce literature in 61 languages, and our literature catalog includes 1,366.

World Service Conference Support:

World Service Conference ("WSC") Support includes the expenses for the in-person and virtual meetings and all of the other expenses directly related to the WSC. This includes all expenses for the World Board, Human Resource Panel, WSC Cofacilitators, translation of conference - and board-related publications, and administration of conference-related projects. We have projected 22% of fixed expenses allocated for WSC Support in the 2026–2029 budget. This is similar to pre-COVID levels.

Fellowship Development:

The Fellowship Development ("FD") activity area encompasses all of the other ways NA World Services supports the continuation and growth of NA worldwide. This budget area contains the direct support we're able to extend to individuals, groups, and service bodies, including a portion of what's spent to provide free and subsidized literature. It also includes public relations, translations of publications, travel, Fellowship webinars, and workshop expenses. We've allocated 26% of the 2026–2029 budget for FD.

Events:

We're planning a World Convention for 2028, which will require significant time, effort, and resources. We also support various Fellowship events with materials and assistance. We are keeping the same 5% allocation for 2026–2029 that we had in the last several budgets. Activity in this area will be higher as we approach the World Convention, but 5% seems like a realistic average over the cycle.
