

Central California Region of Narcotics Anonymous

Delegate Team Report

Thank you for your continued support and confidence in your elected delegates. Saturday March 23, 2024, was our off-conference Regional Assembly. We estimated about 70+ members attended. We are so very pleased with the results on attendance from all 5 Areas, and your participation in our IDT Workshops. Our goal is to provide the type of service to keep up with modern day problems with an old school approach. If our members continue to aid in providing input on these vital topics, we can continue to grow together.

To begin, I want to thank Mike H. for his dedicated service to this Region as your outgoing Regional Delegate. He served in this capacity for 12 years and I want to thank him for his thorough approach to the position. With that, I am honored to say thank you for the vote of confidence in electing myself (Dennis D.) to fill a very detailed position for this Region. Also lets welcome Ellsworth W. to the position of Regional Delegate Alternate.

Next Regional Meeting for CCRNA will be @ Elks Lodge 801 A St. in Oxnard April 21, 2024, at 11:30am. We need to visit changes in our current guidelines to match the current changes in terms and descriptions of the Delegates positions. I also feel we should discuss other potential unfinished PR and Secretary issues. I would highly recommend that every member of the CCRNA Body please read and possibly highlight any imperfections you may recognize. If you do not have access to the current Guidelines, please go to Google Groups and print a draft copy for revision. Or contact me or our chairperson for further information.

Our next challenge is to discuss the most efficient time and location of our next IDT workshops to provide input on two large and rising concerns. First up, "DRT (Drug Replacement Therapy) and MAT (Medically Assisted Treatment) in our rooms." I personally feel members are taking sides on this issue. Our 1st Tradition states that we are to create ways to unify our fellowship. With that, if we gather together as one, and openly discuss our approach together and allow a loving higher power to influence our decisions, we can help mold our future together. This will help us with our second IDT to be discussed. "Reimagining and Revitalizing Service Committee's."

Next is CCRNA is seeking to host the next WSZF (Western States Zonal Forum) for 2025. It is traditionally done at the end of January or beginning of February. Ultimately it will encourage our local and regional members to engage to serve our fellowship on a much larger scale. We will ask our members to provide transportation from LAX and Burbank Airports for our Delegates from other Regions. It also provides an opportunity for members to sit in on business being discussed on our most current challenges. It's typically a 4-day event, Delegates can come support our local meetings.
